

SYNERGRAPHIC SAMPLER KIT E-BROCHURE

Including bestseller architectural products – Glass Bricks, Lami Art, and Kilnformed Glass

ABOUT SYNERGRAPHIC DESIGN

Synergraphic is a premier art+design studio that provides interior and architectural art glass solutions, bespoke lighting, installations, sculptures, features and murals, for indoor and outdoor spaces.

Since the company's formation in 1986, Synergraphic has remained at the forefront of cutting edge design, having created hundreds of features in glass and mixed media for projects in more than 15 countries – including St Regis Singapore, Partners Monument at Taipei 101 and the Crystal Pyramid in Brunei.

Synergraphic also provides a wide range of standard finishes, materials and glass elements to achieve excellent design concepts; and delivers interior pieces to make functional spaces work without compromising beauty. Our services include consultancy, art and design, prototyping, sourcing, installation, and more. We are committed to continually finding new means to increase the value of all kinds of spaces through glass and art.

Synergraphic is firmly dedicated to “The Art of Glass and All Things Beautiful”, and is the ideal partner for architects, designers and artists seeking to turn their visions into reality.

50

Bianca Boards

The newest version of the traditional whiteboards.

Note: All our products are customizable to various extents, such as in dimensions, colors, forms and shapes. Contact us to explore more customization possibilities.

Glass Bricks

Glass elements that can be stacked in their modular units into indoor or outdoor features such as lighting columns, counters, partitions, walls and more.

TECHNICAL INFORMATION

- Glass cast into a variety of solid and regular forms
- Installation method to be advised by our Project & Engineering team, depending on your overall size, brick selection and application

CUSTOMISATION OPTIONS

- Dimensions
- Colors (Plain or mixed)
- Forms / Shapes

ADDITIONAL FINISHING

- Engraving of text and graphics
- Surface treatment such as painting, mirroring and texturing
- Drilling holes

Faceted Bricks

Wave Bricks

Polished Bricks

Clean Bricks

Organic Bricks

Kilnformed Glass

Kiln formed glass is created using a warm glass working technique, which produces a variation of textures and patterns while the glass is warm and malleable.

Our range of kilnformed glass designs are suitable for partitions, furniture, water features, lightboxes, doors, ceilings, artworks, feature walls and can be tiled or used as entire panel. These can act as a canvas for additional paintwork in transparent, opaque, metallic or metalysed colors.

TECHNICAL INFORMATION

- **Size:** Customisable
- **Thickness:** 5mm - 19mm, depending on panel size required
- **Some designs have more relief than others**

**Patterned Glass Big Estrado,
Shoji R1 / Low Iron Glass**

**Patterned Glass Savannah,
Royal Ash / Bronze Mirror**

**Patterned Glass Seedy /
Bronze Mirror**

Patterned Glass

Patterned Glass is made by pressing semi-molten glass between two metal rollers to imprint a pattern. It has texture on one side and is smooth on the reverse. It is lightweight, decorative, affordable highly functional in transmitting diffused light while maintaining privacy.

Different patterns create different levels of obscurity and privacy, giving it perfect functionality and versatile decoration for a wide range of applications. Additional processes of acid-etching, colouring, printing and laminating offer even greater possibilities in decoration and application.

TECHNICAL INFORMATION

- **Sheet Size:** 1800 x 2400mm
- **Thickness:** Ranges from 5 to 7mm

ADDITIONAL FINISHING OPTIONS

- Lamination (With Clear/ Tinted Glass/ Mirrors)
- Colours (Full or Gradient, Translucency customisable)
- Artist-applied effects

Earth Tales Vol. I

Panels from the series are high quality prints laminated between 2 layers of glass, making them a wonderful substitute for real stone in applications requiring lightweight and backlit properties. Panels are also available for configuration in size, scale and orientation, as well as translucency and reflectivity, making them extremely versatile for a wide range of applications.

TECHNICAL INFORMATION

SPECS

- High Resolution Graphic Interlayer laminated between two pieces of glass
- **Maximum size:** 1570 mm x Length; Larger custom sizes to enquire
- **Thickness:** Min. 5+5mm
- **Material:** Tempered/Non-tempered, Clear/low-iron glass

CONFIGURATIONS

- **Two-sided view for doors and partitions:** Transparent, Translucent
- One-sided view for backlit; Translucent
- **One-sided view for cladding on wall:** Opaque/ Reflective (Mirror-back)

HIGHLIGHTS

- Suitable for interior and exterior applications
- Great substitute for real stone, especially for applications that require lightweight properties (e.g. skylights) and backlit applications (e.g. bar counters, feature walls)
- Enjoy the full length of stone or zoom into your preferred section to customize designs, sizes and layouts that fit your application perfectly
- Extremely deep, vibrant colors
- Sharp lines
- High photo-quality prints
- Easy to clean and maintain
- Water, stain and scratch-resistant
- Durable, tested for no color fading

Earth Tales Vol. II

Beautiful marble prints series with a European touch. Through this collection, Synergraphic captures the natural beauty of mineral crystals and stones and makes them available to the world of architecture and interiors in glass form.

TECHNICAL INFORMATION

SPECS

- **Description:** High resolution graphic prints on glass
- **Maximum Size:** 1800 mm x 3600 mm, Larger custom sizes possible
- **Thickness:** Monolithic (6 / 8 / 10mm), Laminated (5+5 / 6+6mm)
- **Technical Specs:** Tempered or toughened glass conforming to BS EN 12150, BS EN 12150-1:2015, ANSI Z97.1-2015 and CPSC 16 CFR 1201 standards
- **Viewing:** 1-sided / 2-sided
- **Surface Treatment:** Polish / Matte
- **Holes & Notches:** Holes in tempered glass must be drilled before heat processing. Size of hole should be greater than or equal to the glass thickness and must be located with a minimum distance of 30mm from any edge.
- **Notes:** Glass configuration is to be advised depending on application and size of panel required.

HIGHLIGHTS

- Suitable for interior and exterior applications
- Great substitute for real stone, especially for applications that require lightweight properties (e.g. skylights)
- Can be used in full length or zoomed into preferred section to customize designs, sizes and layouts fitting to an application
- Extremely deep, vibrant colours
- High photo-quality prints
- Easy to clean and maintain
- Water, stain and scratch-resistant
- Durable, tested for no colour fading
- Heat resistant, suitable for applications such as backsplashes
- Highly functional and decorative

Earth Tales Vol. II

ITALIAN SOUL

A collection of natural stone prints characterized by uncommon color palette and otherworldly patterns tipped with a rustic touch. The Italian Soul embodies the Renaissance era in art form, displaying a vivid transiting line between classical and modernity. Each design in this collection portrays an awesome war between the vintage and the new, the past and the future, the medieval and the millennial.

Bianca Boards

The newest version of the traditional whiteboards – clean, sleek glass writing boards offering the best writing and projection experience for your office, classroom, boardroom and your other living spaces.

ANTI-GLARE SURFACE FOR BETTER WRITING OR IMAGE DEFINITION

Level up your traditional whiteboards with something more refined and functional. Choose a Bianca Board for a clean, efficient writing surface or for a high-definition projector screen.

- Tempered glass whiteboard ensuring durability
- Stain- and ghost- resistant for superior erasability
- Magnetic quality allows instant posting
- Framed or frameless options for seamless fit with any interior style
- Available as standalone unit or in custom sizes to blend perfectly into spaces
- 10-Year Warranty on surface – guarantee for no ghosting
- Quality image definition for projection

1 Polished

Writing

Reflective

Magnetic

Tempered

For heavy writing usage

Bianca Board Polished offers excellent writing surface. It is recommended for heavy writing, is tempered and can have a magnetic capability.

Max sheet Size: **1800 x 2400mm**

2 Matte

Writing

Magnetic

Tempered

For heavy writing usage with an anti-reflective surface feature

Bianca Board Matte is highly recommended for writing. It is tempered and has an anti-reflective property, making it the best writing surface. It can also come with magnetic capability.

Max sheet Size: **1800 x 2400mm**

3 Projector

Projection

Magnetic

Tempered

Designed for projection

Bianca Board Projector offers a high-definition projection surface, perfect for any conference room, classroom, or office. It is tempered and anti-reflective; can have a magnetic capability, and can also be used for light writing.

Max sheet Size: **1600 x 2150mm**

Important Note: BB Projector has a surface that has been treated with a special acid-etched configuration that allows for the best balance of projection capability and writing functionality. Hence, the writing surface is slightly less erasable as compared to the polished option. It is still a writable surface that has to be maintained with regular glass cleaning liquid and cloth. Bianca Board Projector is recommended only for wall areas that require projection use. If the wall is meant for writing only, Bianca board Polished is recommended.
